

SHIPSTONE CONSTRUCTION & SHIPPING

Building the World. Connecting the Seas

Engineering the Future, Bridging the Continents

About Us

Shipstone Construction & Shipping is a global leader in engineering, construction, and maritime services. Our expertise spans across continents, connecting people and resources through innovation, precision, and sustainability. We are dedicated to building the world's most ambitious infrastructure while ensuring environmental responsibility and community development.

Our affiliation between Shipstone Construction and Shipstone Shipping symbolizes the strength of collaboration — one building the world on land, and the other connecting it through the seas.

Core Services

- Civil Engineering – Roads, bridges, and infrastructure projects engineered to global standards.
- Marine Engineering – Ship repairs, dredging, and port construction for commercial and defense sectors.
- Architecture & Design – Modern, sustainable designs that inspire communities.
- Procurement & Project Management – Streamlined delivery ensuring quality, safety, and on-time completion.

Expertise & Team

At Shipstone, our success is powered by an exceptional team of engineers, architects, and project managers who bring unmatched experience to every challenge. Our workforce thrives on precision, collaboration, and continuous innovation. Every project reflects our dedication to sustainability and long-term impact.

Featured Projects:

- Liberty Bridge Reconstruction, New York
- Deepwater Port Expansion, Florida
- Northern Industrial Complex, Michigan

Partnership & Careers

Shipstone Construction & Shipping values collaboration. We partner with organizations, vendors, and subcontractors worldwide to create lasting infrastructures and maritime solutions. Our career programs provide opportunities for growth, learning, and innovation for professionals at all stages of their careers.

Join our team and be part of a global movement shaping the future of construction and marine excellence.
